PROFESSIONAL PROFILE

Motivated Software Engineering graduate holding a Level 5 Professional Higher Diploma in Software Engineering, with a strong foundation in backend development and a keen interest in electronics. Solid grounding in object-oriented design, web development, databases, and software testing, gained through an accredited UK-awarded qualification. Adaptable, quick to learn new technologies, and eager to contribute to real-world software projects.

KEY SKILLS

- Backend development with Java (core interest and strongest area) | Object-Oriented Programming (OOP) design, analysis and patterns
- Web development (front-end and back-end web components) | Database Management Systems | Software testing and QA
- Electronics for software engineering / computer hardware and networking | Project management
- Version control and collaboration via GitHub | Adaptable — quick to pick up new technologies and tasks
